## "Quo Vadis?"

Where are you going? Where are the Seniors going? Where is St. Ignace going? Our Mackinac Bridge presents a challenge to all of us. It will mean great changes in our lives, our town, and our whole Upper Peninsula. The challenge of the future is always with us, sometimes in visible form like the great span that will presently cross our straits, sometimes in the less tangible form of new ideas to explore, new ways of doing things, new friends to meet. Where we are going often depends on where we have been. The years we spend in school equip us with techniques for finding jobs,

searching out answers, making new friends. Many of this year's graduating class will remain in St. Ignace, where with the backing of farsighted townspeople, they will meet the challenge of the future which will make St. Ignace bigger, better, more prosperous, and more inviting. Other 1956 graduates will find their places away from this community. They, too, must front the future with the equipment of their experiences and education. Where are we going? . . . We are going forward to prosperity, success, and happiness!

# Administration . . . . .

Congratulations to the class of 1956. May the leadership and spirit of co-operation you have shown throughout your four years of High School continue to develop. You will be missed and remembered by both students and teachers.

*E. J. Ossmann*

## Board of Education

Mr. Mackin, Mr. Brown, Mr. La Rocque, Mrs. Sterk, Mr. Vairo, Mr. Morin, Mrs. Nordstrom, Superintendent Ossmann, Mr. Hunter.

Under the presidency of Mr. Joe Vairo, the St. Ignace School Board formulated forward-looking policies for La Salle High School. Recognizing our needs, these community leaders assumed the difficult task of dealing with problems of increased enrollment and curriculum requirements. With Gilbert Ziegler serving as president and Mr. Goedde

as advisor, the Student Council, with members elected from each homeroom, served as the legislative-administrative group for the student body. They organized Sadie Hawkins Day, scheduled school dances, established a hall monitor system, and promoted a Drivers Clinic.

## Student Council

STANDING: Judy Soblasky, Crystal Rowley, Prudy Tamlyn, Stanley Ferris, Gilbert Ziegler, Joe Frazier, Bob Law. SEATED: Rosemary McLeod, Carol Coveyou, Gary Alkire, Marian Adams, Roger Wood, Harley Hagen, Jim Welling, Ernie Glashaw.

## Faculty

Fourteen well-trained and experienced men and women guide us through the required and optional courses of study of secondary education. As teachers and friends they open doors of understanding and appreciation. They help us to find our places in the world about us and in our future. Vocational subjects taught by Mr. Harju, Mrs. McLean, Mr. Werle, Mr. Nelson, and Mrs. Wilson give us

skills by which we may earn our living; Mr. Werner, Mr. Wachter, Mr. Richel, Mr. Vecellio, and Mr. Olson guide us through the intricacies of mathematics and the sciences; and Mrs. Laundry, Mrs. Ellis, Mr. Wine-Gar, and Mr. MacDonald teach us the use of language, history, and democratic practice.

## For Four Years . . .

In September, 1952, one of the largest freshman classes entered LaSalle High School. Their freshman year was uneventful except for a gala party early in the spring of 1953. It entailed a scavenger hunt which is still well-remembered by the participants. In their sophomore year, with Judy Lee as president, the class sponsored a few dances and sold pencil pennants to raise funds for their Junior Prom and banquet the coming year.

In the fall of 1954 the class elected Ron Walker president and began building their treasury. They sold the left over pencil pennants, sponsored dances, and sold pop. Finally Prom time rolled around, and the hard working class began the decorating which carried out the "Hawaiian Cruise" theme. Three days after the memorable prom the Class of '56 entertained the Class of '55 at a banquet.

In their last year, the most important year of all, the Class of '56 chose Gilbert Ziegler as president. As seniors they sponsored the annual Sadie Hawkins Dance in the fall and the Silver Bells Ball at Christmas time. They also edited the Purple and Gold News and the Hiawathan. For class colors they have chosen blue and silver; their class flower is lily of the valley; and their motto is "Quo Vadis?"

The Class of '56 has had a number of outstanding athletes and musicians and several honor students.

After Commencement the Seniors of '56 leave the halls of LaSalle, each going his separate way, cherishing the memories of four wonderful years of high school.

## Class Work . . . . .

## Shop

One of the shop classes displays gun racks they made while learning woodworking. In shop classes boys learn woodworking, metal work, and drafting as well as a respect for tools. Mr. Harju, shop teacher, is third from the left. RIGHT: Duane Sorenson stands at the metal lathe, an important machine to a well-equipped shop.

## Commercial-History

ABOVE: Mr. Nelson helps Shirley Ferris and Nancy Sharbanow with problems in personal typing. RIGHT: Mrs. Wilson dictates to her shorthand class. LEFT: Mr. Olson teaches a sophomore world history class.

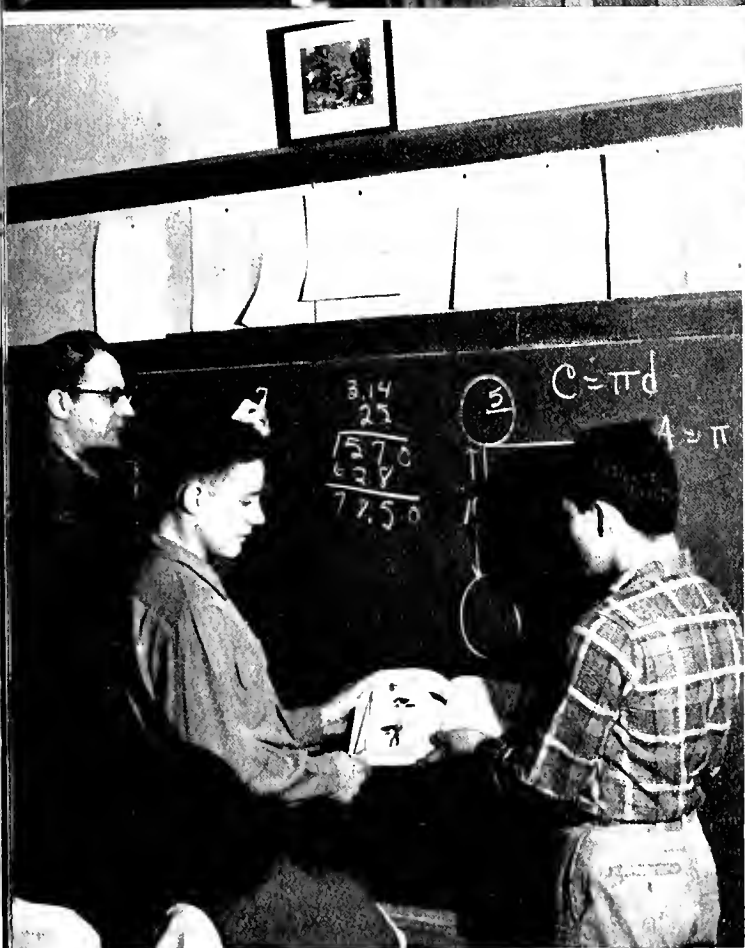

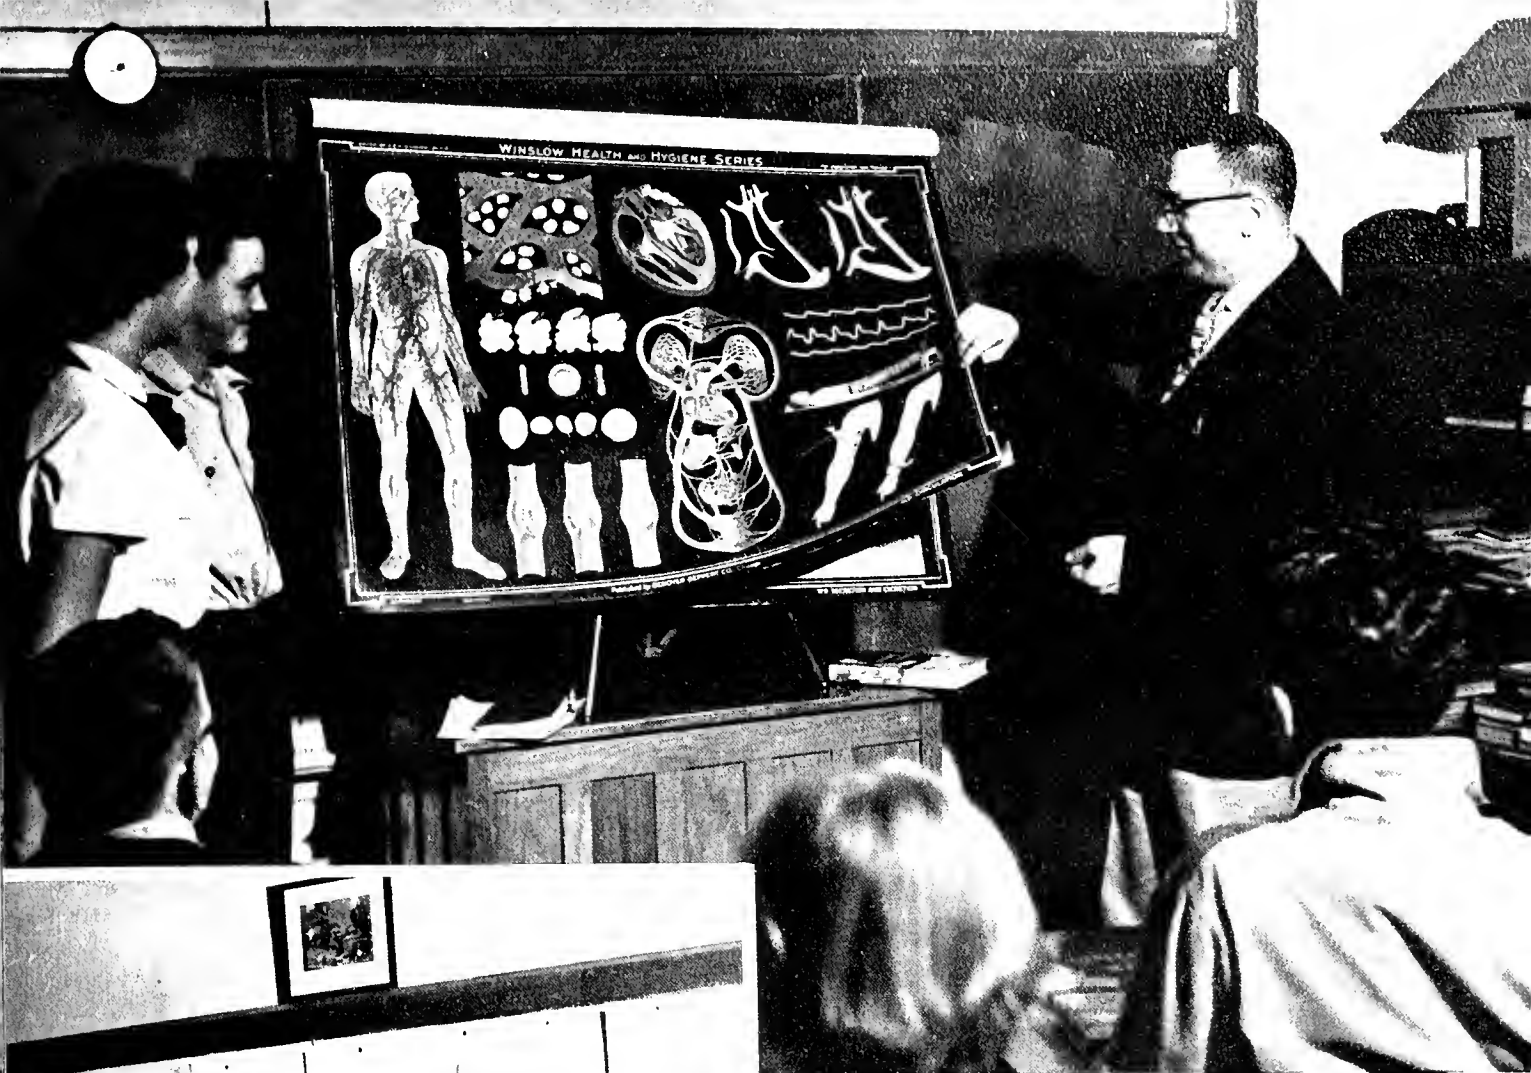

Ron Martineau, Ellsworth Marshall, Angie Spieles, and Nancy Carlburg watch Jim Welling work out a problem in physics. Mr. Richel advises.

## Physics-Ag.

Using an evergreen display prepared by students in conservation, Mr. Werle talks to his agriculture class.

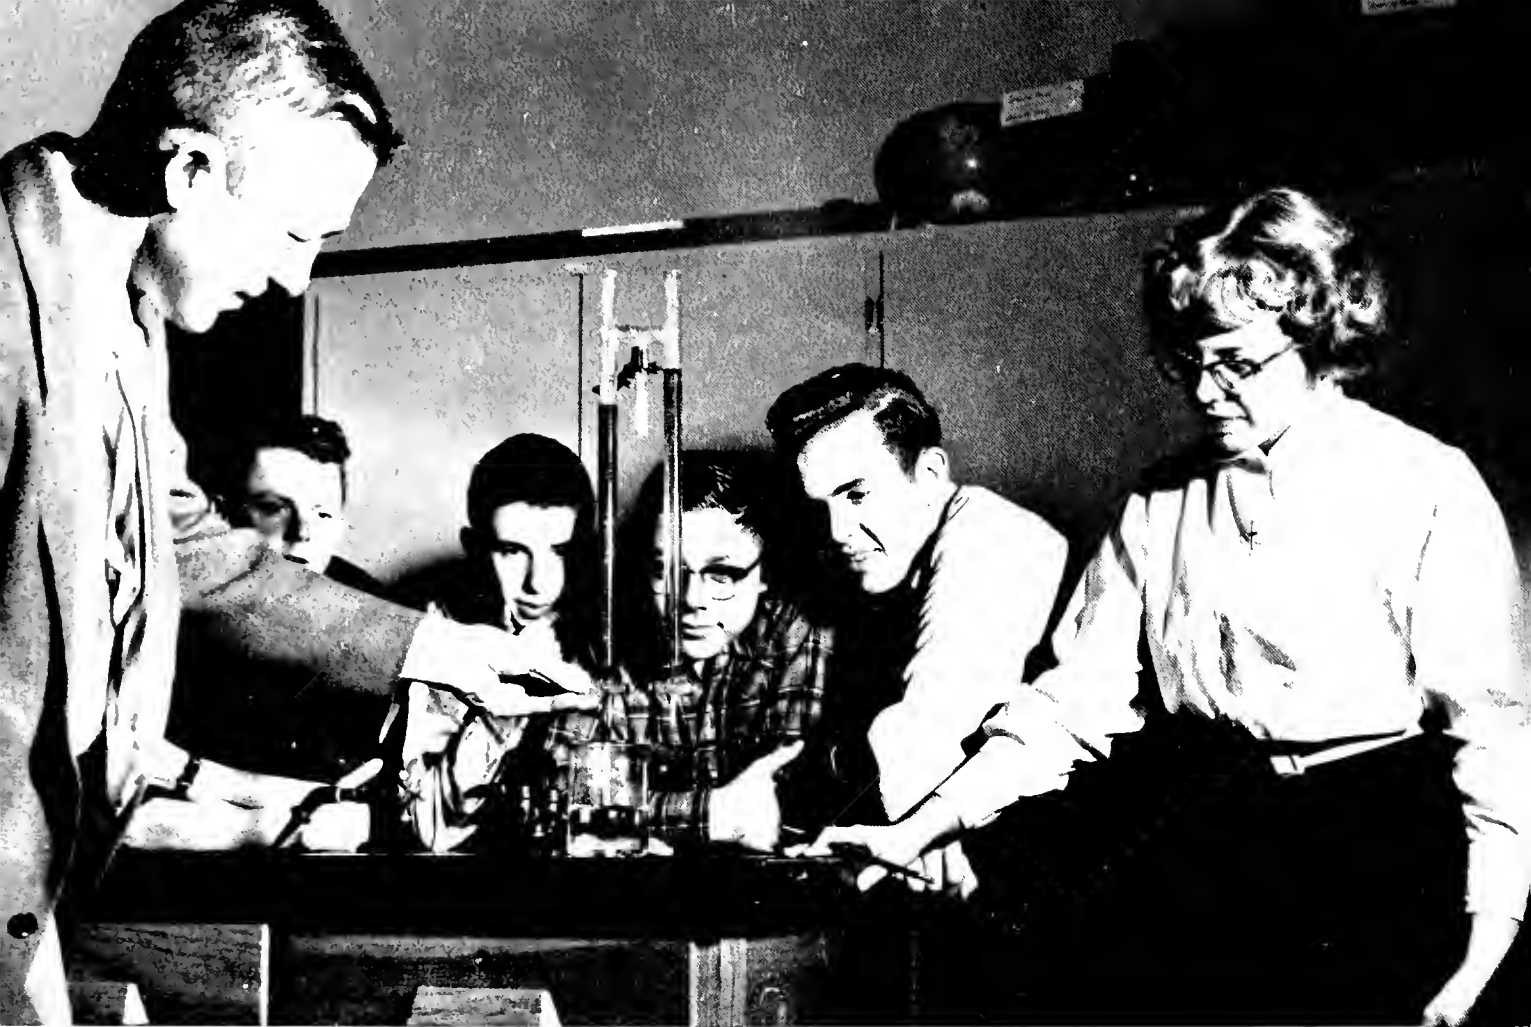

## Science and Math.

Freshmen learn basic mathematics and science to increase their general knowledge and to prepare them for the more advanced courses of the upper high school years. General science gives the student information on health, astronomy, electricity, heat, light, zoology, and conservation. In general math basic fundamentals are covered with emphasis on percentage, the business of everyday finances, banking, and simple formulas.

**ABOVE:** Mr. Vecellio explains the circulatory system to a general science class. **LEFT:** Mr. Werner, Martin Marshall, and Joe LaVake show the general math class how to find the surface area of a cylinder.

## Chemistry History

ABOVE: Paul Gudmundsen, Rex Knight, Dave Gonyeau, Greg Davis, and Donna Cote are engrossed in a chemistry experiment which Mr. Wachter is doing. RIGHT: Students of American history make use of *World News of the Week* to keep up with the times. Mr. MacDonald points out a focal point of interest to Helen Colegrove and Kathy Crouch.

## Home and Family Living

Ron Novenske has a question for panelists Gayle Pechta, Sandra Prokop, Ron Smith, and Carl Luepnitz.

## Art

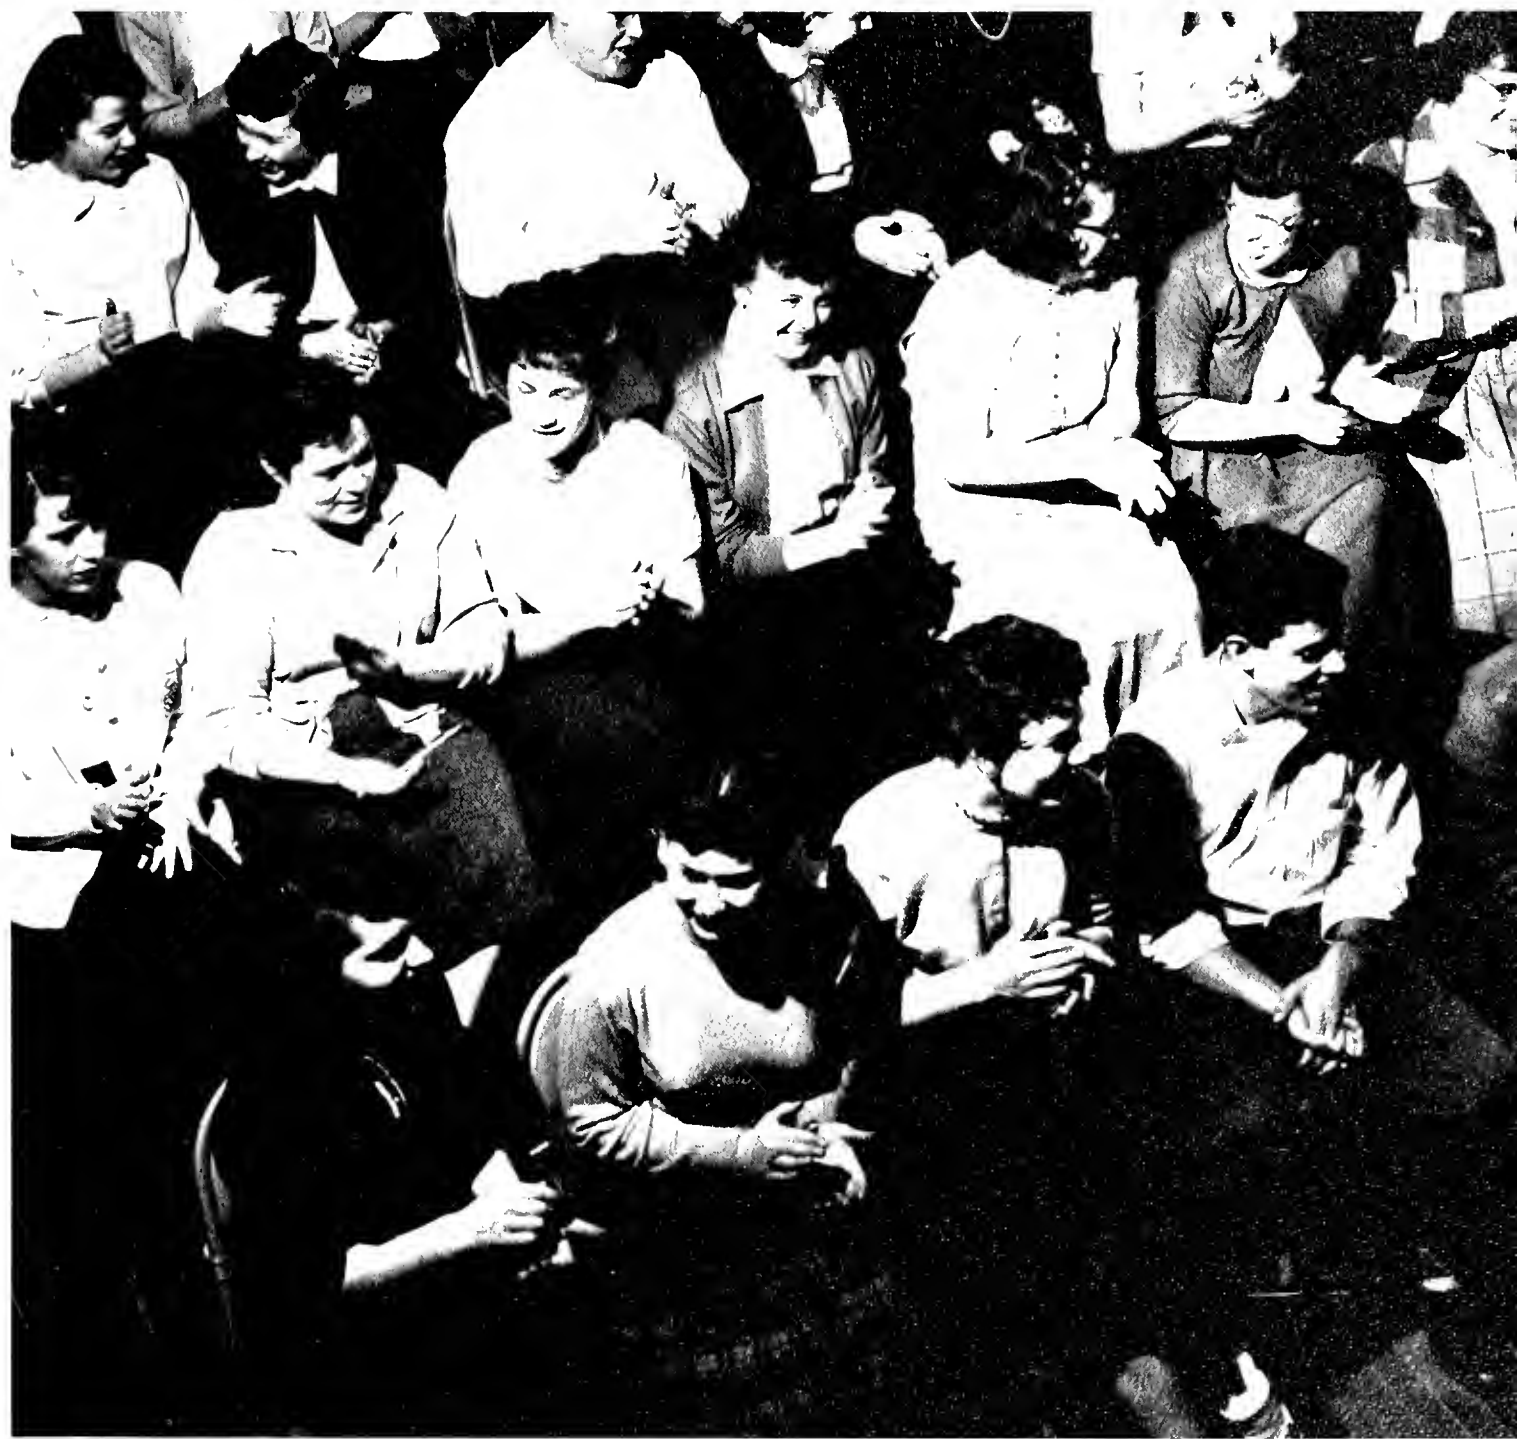

Joan Singleton models for her art class.

**Home Economics** Girls who take homemaking classes learn domestic skills from Mrs. McLean.

**English** Mrs. Laundry instructs her class in English II.

As the Saints entered the final month of the season they had increased their victory total from four wins in 1955 to seven in 1956. In the first thirteen games they had scored 865 points for an average of 66.5 points per game. Big guns for the Saints were Dave Holtham with 271 points for thirteen games and a 20.7 average per game, and Saints' Captain LeRoy "Sam" Mills who ranked among the conference top ten scorers with 186

points for an average 14.3 per game. Near the end of the season a new star emerged when sophomore Willard Lambert scored 23 points in the second Pickford game and continued his high scoring with 24, 17, and 16 points in the next three games. This year's squad will graduate only five members, Captain Mills, Gary Adams, Bob Corrigan, Duane Sorenson, and Burt Krause.
